Applied Cell Biology is an international, peer-reviewed, open-access journal publishing original research and review articles across the full spectrum of cellular and molecular biology with applied and translational relevance.

### **Scope of the Journal**

Cell and Molecular Biology; Cancer Biology; Immunology and Inflammation; Stem Cell Research and Regenerative Medicine; Microbiology and Infectious Diseases; Genetics, Genomics and Epigenetics; Neurobiology and Developmental Biology; Pharmacology and Toxicology; Biotechnology and Bioengineering; Clinical and Translational Research; Computational, Systems, Environmental and Agricultural Cell Biology.

### **Article Types Accepted**

Original Research Articles, Review Articles, Mini Reviews, Short Communications, Technical Notes, Case Reports, Perspectives, Commentaries, Methodological Reports, and other relevant scholarly contributions.

Researchers, academicians, and industry professionals are invited to submit their manuscripts for consideration in Volume 14, Issue 1 (2026).
